**Re:** Preliminary Report to the Provost

Attached is the Preliminary Report to the Provost. Because of my schedule, I have taken the liberty of forwarding it to the Provost.

I incorporated all of the changes [with some editorial license] which were given to me. I did not receive suggestions from most of you, so I apologize ahead of time if some comments that should have been included did not make it into the report. I would suggest that the Final Report, submitted at the end of the upcoming school year try to incorporate anything that I have left out.

I have enjoyed my limited role in this project and wish each of you good luck in finishing our work. I will, at the least, be on leave in the Fall and I am sorry I could not continue in the endeavor. It has been my pleasure to work with you.
